

OVERVIEW

A higher level of conducting made possible by Bandstor's heavy-duty and versatile Conductor Podiums. The podiums have a strong, durable base construction with a carpeted surface for quiet performance and the molded feet provide protection for any floor surface. Recessed wheels allow for easy transportation from storage to use.

FEATURES

- Podium top constructed of 1" thick 45# particleboard with thermofused laminate finish applied to both sides and covered with durable grey carpet. Carpet edges secured with steel edging
- Base structure constructed of 3/4" thick 45# particleboard with thermofused laminate finish applied to both sides. All visible edges are covered with machine applied 3mm PVC edge banding with hot melt glue
- Base panels assembled with 16 Ga. steel plates and #8-3/4" screws. Base secured to top with dado construction and steel plates
- Top edges are wrapped with 16 Ga. steel edging
- Plastic gusset / feet attached at each base structure corner for strength and floor protection
- 5" recessed wheels mounted on front of podium for mobility. (Models BS351 & BS352) 1-1/4" 16 Ga. steel 36" tall guard rail. Rail folds flat for storage and is removable. Rail is attached to heavy duty steel brackets and secured to the base structure with 1/4" bolts
- (Model BS352) Upper podium can be secured to the lower podium with a swing away steel clamp
- All steel components finished with durable powder coat paint

DIMENSIONS

Model	Description	W	D	H	WEIGHT
BS350	Conductor Podium	43	40	6.25	85 lbs

Model	Description	W	D	H	WEIGHT
BS351	Podium w/ Rail	32	40	6.25	80 lbs

Model	Description	W	D	H	WEIGHT
BS352	Double Podium w/ Rail	43	40	12.5	165 lbs

CONSTRUCTION

- Shelves constructed of 21-gauge 1-1/4" (32 mm) steel tube cross bars
- Metal uprights constructed of 14-gauge steel
- Equipped with two full-length hanger bars
- Top shelf adjustable from 56" to 86" height in 6" increments
- Lower hanger bar assembly is removeable to fit robes or taller uniforms
- Durable black powder-coat finish
- 5" heavy duty swivel casters provide easy maneuverability

WARRANTY

10 Year Limited

DIMENSIONS

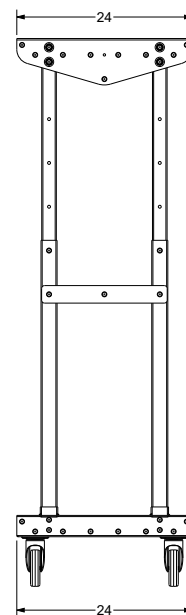

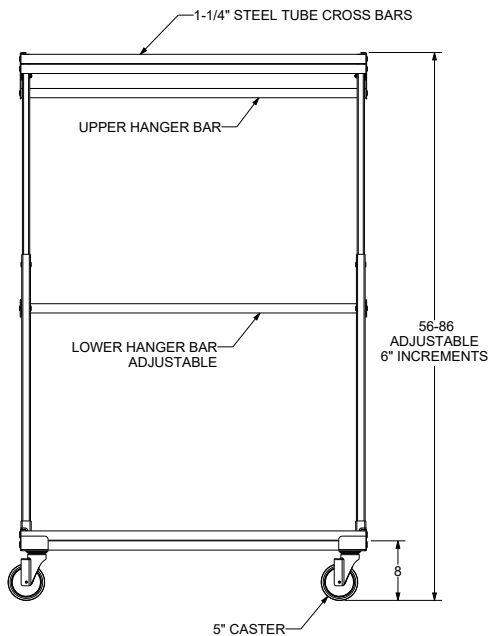

Model #	Width	Depth	Height
BS507	47"	24"	56"-86"

WEIGHT CAPACITIES

Total load capacity = 300 lbs. (136 kg)

Top shelf load capacity = 25 lbs. (11 kg)

Hanger bar load capacity = 150 lbs. (68 kg)

This specification information is provided for general reference only and is subject to change without notice. FEATURES

- Sides, tops, shelves, bottoms, and partitions are 3/4" thick, 45# particleboard with thermofused laminate finish applied to both sides
- Back panels are 5/8" thick, 45# particleboard with thermofused laminate finish applied to both sides
- 3mm PVC edge banding is applied with hot melt glue to all visible edges
- Shelves utilize dado construction into side panels, back panels, and partitions
- Shelves are also supported by steel tubes bolted through side panels
- All shelves protected with patented replaceable textured HMPE plastic liners and replaceable ABS plastic caps through-bolted to wood shelf substrate (patent number 8,544,968)
- Available with wood laminate doors, steel wire doors or no doors
- Laminate: 3/4" thick 45# particleboard with thermofused melamine finish applied to both sides. All edges covered with machine applied 3mm PVC edge banding with hot melt glue
- Steel Wire: Constructed of 9mm diameter steel perimeter and cross wires and 5mm diameter steel vertical wires. Durable powder coat finish applied
- All doors: Heavy duty commercial 5-knuckle hinges with hospital tips allow for up to 270 degrees of rotation. All hinges are through-bolted to panels with machine screws and cap nuts. Fully serviceable heavy-duty steel latch and hasp hardware is through-bolted to doors and panels
- Cabinets utilize 12-gauge steel wrap around brackets with internally adjustable levelers for strength, protection, and easier installation. Cabinet can be installed in place and then leveled with minimal cabinet handling

NOTE: Doors must be included at the time of ordering as they can not be installed later.

ACOUSTIC PANELS (optional add-on)

Environment-friendly material is placed at the back and the top of each compartment to help eliminate direct sound reflection while absorbing high and low frequencies. Acoustic Panels are available as an optional add-on.

FEATURES

- Sides, tops, shelves, bottoms, and partitions are 3/4" thick, 45# particleboard with thermofused laminate finish applied to both sides.
- Back panels are 5/8" thick, 45# particleboard with thermofused laminate finish applied to both sides.
- 3mm PVC edge banding is applied with hot melt glue to all visible edges.
- Shelves utilize dado construction into side panels, back panels, and partitions.
- Shelves are also supported by steel tubes bolted through side panels
- All shelves protected with replaceable textured HMPE plastic liners and replaceable ABS plastic caps through-bolted to wood shelf substrate.
- Available with wood laminate doors, steel wire doors or no doors.
- Laminate: 3/4" thick 45# particleboard with thermofused melamine finish applied to both sides. All edges covered with machine applied 3mm PVC edge banding with hot melt glue.
- Steel Wire: Constructed of 9mm diameter steel perimeter and cross wires and 5mm diameter steel vertical wires. Durable powder coat finish applied.
- All doors: Heavy duty commercial 5-knuckle hinges with hospital tips allow for up to 270 degrees of rotation. All hinges are through-bolted to panels with machine screws and cap nuts. Fully serviceable heavy-duty steel latch and hasp hardware is through-bolted to doors and panels.
- Cabinets utilize 12-gauge steel wrap around brackets with internally adjustable levelers for strength, protection, and easier installation. Cabinet can be installed in place and then leveled with minimal cabinet handling.

NOTE: Doors must be included at the time of ordering as they can not be installed later.

ACOUSTIC PANELS (optional add-on)

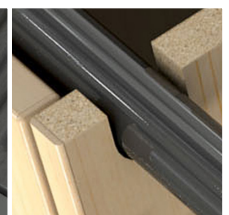

Environment-friendly material is placed at the back and the top of each compartment to help eliminate direct sound reflection while absorbing high and low frequencies. Acoustic Panels are available as an optional add-on.
